# Welcome

- Saab Car Museum together with the organizing Swedish Saab clubs welcome you dear Saabenthusiast to Trollhättan. We are honored by your presence and the international touch will be noticable.
- The feeling you have behind the steering wheel on your car is perhaps the most important thing that binds us enthusiasts together and we hope we can offer a program that will inspire you to discuss Saab in general and in particular with old and new friends during the weekend.
- But more importantly: Don't forget that a SAAB is made to be driven. Use your car. We celebrate 70 years with Saab and the best way to do this is to take care of your car and enjoy it on the roads. Today and in the future
